The Wellstreams Ecumenical Program of Spiritual Formation and Development is pleased to present this one-day workshop exploring the powerful leadership styles of Jesus.

Jesus led with great vision, logic, and heart, able to lead through known risks, even to the edge of failure and returned successfully.

As the “ultimate leader” Jesus had the ability to express and manifest a radical vision.

With a focus on the three years that Peter followed him, we will look at:

- ~ How Jesus modeled leadership behavior,
- ~ Patterns of Jesus’ leadership
- ~ How his vision became expressed in human structures,
- ~ How Jesus’ influence with Peter changed him into a world leader of the faith

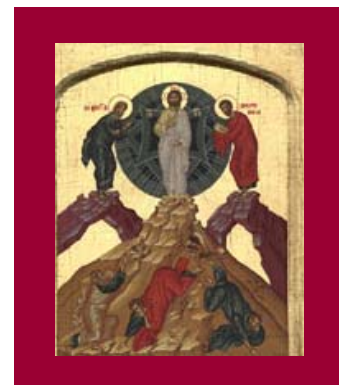

This workshop will be a combination of lecture, discussion, reflection and includes developing a “Spiritual Development Plan”.

Please join us for a moving and powerful workshop that you will long remember.
