

## Megan Kearns (she/her)

Faith Tradition: Nature, Silence, Christian, Interspiritual, prayer, play, laughter and a wide-open curiosity for how the all of Creation is still creating

Megan was born and raised in west central Ohio. She earned her bachelor's degree and her MBA from Bluffton University. She has held roles in leadership, mentoring, and coaching. Currently works as Material Services Manager at F&P America Manufacturing Inc. in Troy, OH and is a practicing spiritual director.

Megan enjoys connecting with people and sharing space. Outside of work Megan enjoys being outside, working in the yard, sitting by a fire and spending time with her family.

“Megan’s foundation is built upon an empathetic interconnection of all (beings and) things. These life threads are a balanced tension of tenacious perseverance, ever long learning, and a peace found within the beautiful will of humanity. One might say her first thread was the root of a tree. Though it could be argued that the moon was pulling for her too. Between the earth and the stars, Megan is happiest weaving her spirit, teachings, and enthusiastic curiosity into a soft landing for all. Be it friends, family, teachers, students or passersbys there is a seat for your story, of course, by the warmth of a fire.”

~ Ambrose Dupree
